

In Regard to Our New Department

More than a year ago the idea of a first-class Women's and Children's Shoe Department was conceived—this in response to frequent calls from our customers. Any such addition to our stock would clearly make an annex a necessity. This we found could easily be accomplished by building in on the lot at the rear of the Miles Millinery Store. Plans were drawn and the workmen will soon turn over to us a department conceded by people who know to be second to none in the state. The room will be 50 feet long by 15 feet wide, lighted by four large prison lights and an entrance from the main store between the wash goods and domestic departments.
